Smoke Alarm For Every Family

## Public Service Announcement Radio

In the interest of public safety, please announce the following important message whenever possible during your broadcast.

### Install Smoke Alarms: It's the Law!

Voice Over: Length 30 seconds

If there was a fire in your home tonight, working smoke alarms would increase your chance of survival by 50 per cent. The fire department reminds you that having working smoke alarms is not only a good idea - it's the law.

The Manitoba Fire Code requires that every home have working smoke alarms on each storey and outside all sleeping areas. Test your smoke alarms every month and change the batteries once a year. If your alarms are more than ten years old, it's time to replace them with new ones.

This *alarming* message is brought to you by \_\_\_\_\_  
and this station.
